

VIETNAMESE AFFAIRS STAFF
OFFICE OF THE DIRECTOR OF CENTRAL INTELLIGENCE

Approved For Release 2004/09/23 : CIA-RDP80R01720R000700070014-9

DATE: 16 June 1972

TO: Col. David Farnham

FROM: George A. Carver, Jr.

SUBJECT: Maps of South Vietnam

REMARKS: Attached are the maps that we discussed the other day. As you know, they portray the territorial situation in the broadest of terms and are therefore easily subjects for misinterpretation. As I think you also know, I would not consider putting them into the hands of anyone not named Dave Farnham at this time, since they have not yet been released by my chief nor have they been seen by yours.

I hope that your trip proves fruitful. I have cabled my colleagues in Saigon to let them know of your arrival and your mission and asked them to help you in any way they can. We are all anxious to hear the results of your survey and particularly want to get your impressions of the countryside and ARVN morale issues.

Best regards. I would suggest that you keep your head down while touring the rural areas but I understand that it is bad form for civilians to give military personnel tactical advice.
